### **DETAILED ACTION**

1. According to a preliminary amendment filed on June 9, 2005, the applicants have canceled claims 29-33 and furthermore, have amended claims 23, 25, 27, 28, 34, 37 and 39.
2. Claims 1-28 and 34-39 are now pending in the application.

### ***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) In part 1-13, 15-18, 21-28 and 34-39, drawn to Compounds of formula (I) where each Z represents C, ring B represents 5-membered saturated carbocyclic ring, X represents C1-5 alkylene chain without heteroatoms and ring A represents isolated piperidine ring connected to X via N atom ( see compounds on page 23 of specification ), pharmaceutical compositions containing these compounds and methods of treatment using these compounds.

Group II, claim(s) In part 1-18, 21-28 and 34-39, drawn to Compounds of formula (I) where each Z represents C, ring B represents 5-membered saturated carbocyclic ring, X represents C1-5 alkylene chain without heteroatoms and ring A represents piperidine ring connected to X via N atom which is spirocondensed with a 5-membered saturated ring containing two nitrogen atoms as heteroatoms ( see last three compounds on page 21 of specification ), pharmaceutical compositions containing these compounds and methods of treatment using these compounds.

Group III, claim(s) In part 1-13, 15-18, 21-28 and 34-39, drawn to Compounds of formula (I) where each Z represents C, ring B represents 5-membered saturated carbocyclic ring, X represents C1-5 alkylene chain without heteroatoms and ring A represents tropane ring connected to X via N atom ( see compounds on page 35 of specification ), pharmaceutical compositions containing these compounds and methods of treatment using these compounds.

Group IV, claim(s) In part 1-21, 23-28 and 34-39, drawn to Compounds of formula (I) other than defined above for groups I, II and III, pharmaceutical compositions containing these compounds and methods of treatment using these compounds.

The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no common core which in the Markush Practice, is a significant structural element shared by all of the alternatives; see PCT Administrative Instructions Annex B Part I (f) (i) (B) (1). In the instant case, variables Z and X as well as rings B and A are critical for the common core of the instant compounds.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. It is of note that if applicants elect group IV, they must specify the values of variables Z and X as well as of rings B and A since this group is subject to further restriction based on the values of these variables.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in

Art Unit: 1625

the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
